ENGINEERING SOLUTIONS

Fully integrated engineering services are available to companies requiring the highest level of technical assistance. Our resources can deliver a safe, professional response to individual customer requirements from inception to conclusion. We work in partnership with our clients to facilitate and deliver solutions to fast-paced complex engineering problems.

SERVICES

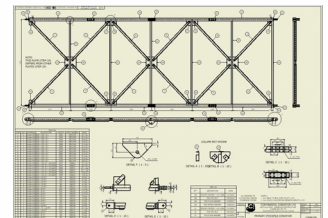

Contract Design [Northern] provides the following services:

- Contract Engineering
- Detail Engineering
- CAD Draughting
- Design Engineering
- CAD Drawing Conversion
- Project Management & Procurement
- Project Engineering

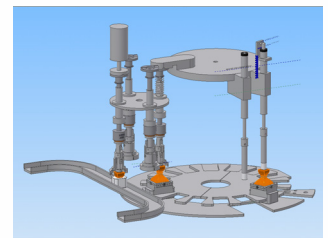

RIGHT PEOPLE

We have assembled, and have access to, highly experienced and qualified experts so we can supply a flexible, competitive, dynamic and quality service. We listen, understand and react rapidly to client requirements in order to deliver innovative engineering solutions.

EXPERIENCE & COMPETENCE

Since our foundation we have grown both in resources and reputation. We have provided extensive engineering consultancy services to a large number of UK and overseas clients involved in traditional industries such as offshore oil & gas, marine, petrochemical, nuclear engineering and manufacturing sectors as well as emerging markets such as renewable energy.
